Vegetable Crops Now Near End Of Harvest Season

Potato Harvest Is Proving Up Above Early Ex- pectations

The ear crop movement of last week showed a big decrease over former weeks and spelled the beginning of the end for the 1944-45 season in the Glades area.

This week potatoes and tomatoes proved to be the king bee in the land products and these came tumbling into the packing houses in amazing volume working the processing machines to the limit.

Tomatoes ripened rapidly, so that the season will not be a prolonged one. Yields have been a prolonged one. Yields have been a prolonged one.

Most of the early type potatoes will practically all be dug by the end of this week, but the later varieties will not all be gathered till toward the end of the month.

The Agricultural Extension officials have been busy the past week in the moving of domestic labor crews to points in Virginia, North Carolina, Maryland and New Jersey and some to S. Carolina where berries, strawberries, asparagus and tomato crops are now harvestable.

None of the local Bahamian imported labor to date has been moved from the Glades as the Government finally moved the workers in from other less pressing areas. However, an export of such labor can be expected from the Glades in the next two weeks.

The continued drought and hot weather has done celery no good the past ten days and the fields are showing the result and this crop may end earlier than anticipated, also with a little less than growers hope there may be somewhat of a come back on this commodity. Beans are still moving, but the quality and quantity are not so good and many are leaving unpeeled crops go on in hopes of securing a good seed crop.

Will Ask For Road Bids

County Commissioner Paul Rardin announces that the State Road Department will soon ask for bids on the Lake Wales road project from the Belle Glade bridge to the packing house center, a distance of seven tenths of a mile, estimated to cost around \$97,000.00.

This is a road that carries the heavy traffic and to make it a permanent one for years to come will be a 44 foot wide road of rock to rock construction.

Whoever may be the contractor will get much of his rock from the local base, by dredging it out of the Hillsboro canal right of way. This source may also supply considerable of the filling needed for the construction of the new adjacent Athletic Field which the South Shore Athletic Council will erect during the summer.

County Federation Of Home Demonstration

At the Community church on Thursday, May 17 at 10:30 a. m. delegates from all of the Home Demonstration Clubs in Palm Beach County will meet for an all day meeting and pot luck luncheon with the local Club as hostesses for the occasion. Mrs. J. L. Freedlund will give the welcome address and the business session will be presided over by Mrs. John A. Erickson, county president. Mrs. Ogle Moore and Mrs. Milton Campbell are appointing a committee who will assist them in serving the luncheon at noon.

Dr. R. B. Allison of the Everglades Experiment Station is the guest speaker for the afternoon program and will speak on the subject "Nutrition from the Standpoint of the Soil" which promises to be very interesting as well as educational. Mrs. Chester Jones will give several vocal solo.

Members are requested to bring samples of bread as Mrs. Bertha Hausman, county agent, is arranging a display table for that purpose.

Local DeMolay Chapter Soon To Have New Charter

Belle Glade Chapter of the DeMolay's, which has been operating under a temporary charter, will soon be functioning under a permanent charter granted by the National organization. Plans are being made for a charter night event, which will be featured both as an academic ceremonial, as well as the occasion for the installation of officers.

This chapter now has a membership of around 60, and new petitions coming at each meeting. A class of youths is being formed at the Clayton-Moore Haven, to be initiated here with a view of a prospective new charter night, it is likely that the staff from West Palm Beach, which had a leading part in the founding and installing of the chapter, will be in action.

The formation of the Belle Glade chapter was sponsored by the local press, immediate past worshipful master of Everglades Lodge, the wearer of a prized oratorical key from the National Council, who also is a Prince of the Court of Honor, the red cap division of the Scott, and by those who member ship and selected members of the local press.

The chapter will have its initial installation ceremonies at a meeting on next Monday night.

Lions Club Enjoys Musical Program By Evangelists

An unusually entertaining program was enjoyed by the Lions Club at its Wednesday dinner with Donald Weeks as chairman of program.

Donald being a Baptist, and having some talented Baptist musicians available for a program, he introduced Eugene Enlow, piano-singer and trombone player, and Billy Jones, evangelist pianist, as the artists of the evening.

Lion Browning brought up the suggestion that a movement be started toward organization of juvenile athletic club in the Glades, so that when the schools from LaBelle to Okeechobee to provide pre-football entertainment during the season.

He thought some club in each place should sponsor and carry on with such a movement. The matter was tabled for later consideration.

Lion Belk of Pahokee described the success of flag display on Tuesday in both Pahokee and Belle Glade and suggested that a local club put on a flag selling campaign so that when the real VE Day comes after the defeat of Japan, that each business place and home could display Old Glory.

Dr. Billy Weeks announced the arrival of a new son in his home and during the program Lions enjoyed a fine cigar at his expense. Lion Cunningham, who was due for cigars, but who was the same reason, reneged at this time, saying the brand he had ordered had not yet arrived from Tampa.

Successful Year Recorded For The Community Church

Increase in Membership and Finances Want J. O. Jameson As Pastor

Membership of the Community Methodist church held a largely attended annual business at the church house on last Sunday morning and reports made by the minister and officials showed that Methodist church in Belle Glade had not been neglected the past year, but material progress recorded.

During the year they had some removals and resignations from the church boards, so elections were conducted according to discipline methods, to fill such places, and resulted as follows: Board of trustees: Three years, E. M. VanLandingham and C. A. Thompson; one year, W. A. Te-Strake. These men will serve with H. L. Haney, C. A. Bailey, Pat Burke and R. Y. Crech, hold over trustees Stewards: R. S. Barr I. E. Hamilton, community stewards, Mr. and Mrs. Hardy W. Taylor. The above replace Dr. J. R. Neller, W. B. Granger and Mr. and Mrs. Hugh Bratley. The Bratleys requested relief as community stewards after many years of faithful and efficient service.

At the opening of the conference year, the pastor, Jay O. Jameson, set a membership goal of 300 and reached that goal by an excess of two, by receiving into church fellowship, sixty-four persons, despite, removal of ten of the former members. Financial reports show that conference, district and local

budget appropriations had been met full, and the largest surplus left in the treasury in the history of the church.

The congregation voted an increase of \$500.00 in ministerial support for the coming year, which is apportioned to the bishop, district superintendent, conference claimants and the local pastor.

During the year throughout world wide Methodism there has been conducted a special movement called "The Crusade for Christ," to raise a fund of \$25 million of dollars, for church expansion, rehabilitation and other needs. Of this amount the Florida conference was apportioned \$398,000; Miami district, \$70,000, and the Community church of Belle Glade, \$1,600. All of these amounts have been over-subscribed, the conference \$25,000 to date, Miami district likely by a like amount, and the local church with a surplus over its quota.

Jay Jameson has served the local church for the past eleven

Working on Athletic Field

If you do not believe that Belle Glade is going to have a new and modern Athletic Field, just take a wander up along the proposed site and you will see a tractor and grader busy turning over the soil and filling in the big ditch which formerly divided the space the field will occupy. This particular piece of work will be completed by the end of the week.

Secretary W. P. Risk, of the South Shore Athletic Council, reports that additional donations are being added to the list and that to date on be \$10,000 project aggregate \$8,400 in the till and that the full amount must and will be raised.

an aerial crew.

Jack enlisted in the Aviation Cadet Corps and after receiving basic training at Keesler Field, was assigned to University of Chattanooga for the five months college detachment course where he was an honor student.

He was sent to Maxwell Field for preflight training but still he met the visual requirements in the survival test required for further pilot training.

He was then sent to the Army school, Lowry Field, Denver, Col., where he graduated from that school in September. He was then assigned to the B-17 Gunner school in Las Vegas, Nevada, and received his Gunner's Wings in January.

Jack is a graduate of the Pahokee High school, class of '42 and spent one year at the Aeronautical Engineering school, Alabama University and entered service in October 1943.

War Ends In Europe!

GERMANY COLLAPSES

The special revival services at the First Baptist church to be held the coming two weeks go off to a good start on last Sunday with good congregations at both the morning and evening services.

This evangelistic campaign will be a father-son combination as Rev. I. E. Enlow, the pastor, will do the evangelistic sermonizing and his son, Eugene Enlow, will be in charge of the music and devotionals, and those who have seen them in action admit that it is a most forceful and competent combination. It is a worthy son on a talented father. Then there is Billy Jones of Schriber, a young evangelist pianist, to bring the music out for the singing of the special choir, both adult and juvenile, and the congregation.

According to plan, Belle Glade Post, No. 20, American Legion, conducted a citizens evening mass meeting of Thanksgiving and Prayer at the High School auditorium at 8 o'clock which was fairly well attended.

This program was in charge of Commander W. L. Cunningham, of the Legion Post and seated on the stage with him were the Revs. J. O. Jameson and Eugene Enlow, Prof. Frank O. Holson, Dr. Richard Townsend, and D. C. DeHaven, presidents of the Rotary and Lions Clubs, Miss Adelaide Perry, Mrs. Milton Campbell and Mrs. Beebe Lyons, representing the women's clubs.

The opening prayer was made by Rev. J. O. Jameson followed.

War Bond Sales Lagging Behind In This Sector

Bought your Seventh War Bond yet? By sales recorded at the Florida National Bank it is very apparent that the great majority of the people have not yet done so as only \$23,000 in sales have been recorded to date.

If the Glades is to keep up its former record of past sales in Bond drives, there is going to be a need of considerable hustling in buying these bonds.

Chairman Puckett, however, is of the opinion that with the great news of the week of Germany's surrender, will be an impetus to increase sales from this time on. There will still be need of great expenditures in Europe, and now those who have been wanting the opportunity of doing something about wiping out the sneaky, oily, stinking Japs, and that desire by buying bonds to provide the sinews of war against this Oriental enemy.

A considerably conceived program executed under Hitch's direction with more than a dozen participants furnished entertainment to an attentive audience. It was a different program featuring friendly rivalry between the Rotarians and their Arms.

The food was well prepared, plentiful and served by a corps of high school girls promptly.

Dick Townsend, President, received generous contributions for the unusual and provocative entertainment under Hitch's direction.

Two British Pilot Traimees Killed In Plane Crash

An early Friday morning plane crash at the grounds of the Experimental farm, caused the death of two unfortunate British pilot trainees and the total wreckage of a 8-T-6 training plane from the Ridge field at Belle Glade.

Around 2 o'clock Dr. Minnum at the station was awakened by accident and as soon as possible taken and went out to investigate and as he did so heard the crash just west of the station stables and tool sheds.

The plane did not catch fire after the crash, so he was able to make an inspection and discovered the nose of the plane sunk deep in the soft muck, the engine pushed forward into the cockpit so that he knew that occupants of the machine must be dead and in this supposition he was right.

Later developments showed that the remains of one of the trainees had been mutilated and torn to shreds and scattered over the area near the wrecked plane. The other young flyer was also somewhat mutilated. Later the remains were taken to Clewiston for burial.

Dr. Minnum notified the Ridge school by phone of the fatal crash.

F. F. A. Banquet

The Belle Glade chapter of the Future Farmers of America will hold its fourth annual Parents and Son banquet at the High School cafeteria tonight.

Jim says the banquet will be a very fine affair. Parents of the members and the High School faculty are invited.

A dance will be held for the High School students in the gym after the banquet.

News of German Surrender Received In Subdued Elation

The citizens of Belle Glade took the official announcement of the cessation of hostilities in Germany in stride Tuesday and at once by agreement all business houses, except those essential, closed their doors for the day and the national emblem was displayed on public buildings and a few in front of business houses and homes.

Everyone was discussing the great news, but in a subdued and orderly manner and a dog fight would have stirred up the calm which prevailed.

According to plan, Belle Glade Post, No. 20, American Legion, conducted a citizens evening mass meeting of Thanksgiving and Prayer at the High School auditorium at 8 o'clock which was fairly well attended.

OBSERVATION and Comment

By John M. Gledhill

Got in Dutch recently, because I interpreted the word "got" as meaning done, I refer to the Pete Scuran pork story. Well, it develops that Pete did not actually do the planting of the palm trees, but was instrumental in getting the act done. Discussion now lies around the question as to which did do the planting, Jules T. Waters, former Chief of Police Waters. We leave the question there for others to settle. However, Jim Dwyer now comes into the picture. Jim says he has killed all those palm cabbage trees from the nursery at Delray in 1929, when they were of plantable size, saw only those in the seedling park, but also the ones that now line the canal and formerly along Main street, later asked to benefit fromings of the city.

Drainage canal water supplies are showing a bit low these days, and pump-crew men have been forced to operate stations on a heavier scale than usual to keep enough water in the feeding canals for crop demands. Sure is dry out in those farm muck lands. After a day in the fields, I took a needed bath, and never saw so much in the sediment come off my carcass as on this occasion. It was simply amazing.

The Glades section seems to be at last coming into its own, so far as roads are concerned.

MISS SWIFT IS BRIDE OF LIEUT. KASPRZYK

The marriage of Miss Isobel Swift, daughter of Mrs. P. C. Keese, 214 Essex Lane, West Palm Beach, and Lieut. E. M. Kasprzyk, Army Air Corps, Long Beach, Calif., and Glenlyon, Pa., was solemnized at St. Ann's rectory at 5:00 p. m. by Rev. Fr. Pierre Landry, on May 1.

For her wedding the bride was attired in an afternoon frock of white crepe with matching accessories and carried an arm bouquet of white roses. Following the ceremony, a reception was held at the home of the bride's mother. Miss Kasprzyk is a former student of Palm Beach Junior College and the University of Miami. Lieut. Kasprzyk attended the University of Pennsylvania before enlisting in the Army Air Corps three years ago. Immediately after the reception the young couple left for Lincoln, Neb., where Lieut. Kasprzyk is now stationed. Miss Emily Kasprzyk of Washington, D. C., the bride's sister, was a house guest during the wedding.

RECITAL

Mrs. J. A. Murphy presented her Intermediate Pupils in a piano recital at the Woman's Club on Friday afternoon at 5:30. Those who took part in the recital were Ann Hughes, Catherine Friedheim, Irma Stein, Jean Carlisle, Barbara Wedgworth, Diane T. Strake, Jerry Barry and Dorothy Kidder.

After the program orange juice was served by Mrs. Lawrence Hughes, Mrs. Fritz Stein, and Mrs. Ralph Kidder. During this time Mrs. Murphy played a piece that she had composed while she was ill in a hospital. This piece was called "On To Victory." Miss Alma Murphy told the story of the different parts. She also played an offering of late compositions entitled "Promenade."

F. F. A. CONTESTS

On Thursday evening at 8:00 Future Farmers of America chapters from Clewiston, Stuart, Palmetto, Oklawaha and Belle Glade met in the Belle Glade High School auditorium to compete against each other in various contests which are held all over the United States by the F. F. A. chapters.

MAKING TWO BLADES Grow

In recent years, farmers of the South have literally folded their hands and made two blades grow where one grew before. Through the use of improved varieties, crop rotation, soil improvement, more judicious use of fertilizers and better cultural methods, crop yields have been greatly increased.

This is real progress. But southern agriculture has not stopped there. Diversification is the order of the day, so that the South is no longer tied down to the one crop system.

Large credit for the South's progress in agriculture is due to the State Colleges, agricultural experiment stations, county agents, the Soil Conservation Service and

others who have toiled through the years for the improved methods now so much in evidence.

The Seaboard Railway, through its Agricultural Development Service, has made effective contribution to the South's agriculture. Along the Seaboard's lines new crops have been introduced, farmers have been aided in solving production problems and assisted in finding profitable markets. Hand-in-hand with other constructive forces in our territory, Seaboard will continue to work for greater prosperity among our friends and patrons on the farms of the South.

THROUGH THE HEART OF THE SOUTH

The Seaboard congratulates Florida upon 100 years of Seaboard and Progress.

MARINER MEETING

A meeting was held in the high school auditorium on Tuesday morning at 10:00 for all those who are interested in being sea scouts. Mrs. R. V. Allison, Mrs. Roy Bair and Miss Edna Dunbar are going to be the leaders. The girls discussed the requirements for becoming Mariners and also planned an outing to Palmetto on Saturday afternoon to swim. The next meeting was planned for Tuesday afternoon at 4:00. More definite plans will be made then as to how the Mariners will function.

A Big Surprise Awaits Customers--Some Day?

Home folk have long been deprived of many of the necessary articles that formerly went into every day home uses. They wanted new equipment or repairs for old. But there was a war on.

It is not going to be many months after VE day before manufacture of customer goods will be under way and finding the retail marts of the land. Do you remember any of these articles?

LEMAI LOVELL HAS BIRTHDAY

South Bay—Mrs. R. L. Lovell honored her son, Lemar, on his tenth birthday, May 1, with a wench roast on their lawn. Cake and punch were served as dessert.

Those present included Raymond Martin, Byron and Pauline Walker, Elizabeth Lockmiller, Delbert and Jimmy Hardy, Eunice McAllister, Betty Haymore, Mickey Herring, Janie Sumner, Billy Joe Ratley, Raula Hall, Jimmy Williams, Norma Jean Lovett and Lomax Harrelle.

JOE FRIEDHEIM HEADS NEW CORPORATION

Florida corporation headed by Joe Friedheim as president and financed by Jomen Co. Inc. of New York and Helo Co. Inc. of New York is developing three sections of land two and one-half miles south of Lake Harbor. The land faces the Miami Canal and runs west for three miles. This new corporation has already spent \$40,000 on roads alone to open up this new development. Road taken from the Miami Canal has been used to surface the roads. The State Road department is laying the rock on the two and one-half miles of road paralleling the Miami Canal on its west bank to Lake Harbor and the corporation is laying the rock for their farm road extending two and one-half miles west and cutting through the middle of the development.

F. F. A. Members Had Good Season

Donald Smith, son of N. C. Smith, formerly of Lake Harbor, now living in Pahokee and member of the Pahokee High School Future Farmers of America and Donald Padgett have six acres of okra as their spring school project. Last week they sold the cut from the tract at \$8.00 per crate and made \$400, according to word received here.

Many of the F. F. A. members in this vicinity had fall or spring crops on their school tracts, some grew both fall and spring crops and others concentrated their all products, raising beets or pigs, tending on poultry and poultry.

Most of the boys who planted crops specialized in snap beans, which is after all the chief vegetable crop of the Everglades.

Many of the local boys did very well on their fall crop which escaped the hazards of the heavy rains accompanying the first hurricane. Practically all of them made a little better than even this spring. The school boys experienced the same difficulty that farmers in general did in securing harvest hands to pick their beans when the product was ready for market, and some of their beans like those of the regular farmers went to the canneries because they could get them picked in time to sell on the open market at ceiling prices. In general the F. F. A. boys acquitted themselves well and give promise of being able to step into their parents' shoes as experienced growers when they have left their school days behind them.

Reconstruction Finished On South Bay Road

The Brunson Construction Company finished the reconstruction of Road 25 from South Bay to E. Hendry county line, when they laid the last top surface rock near here Monday and started moving their equipment to Canal Point where they have another road contract between

Canal Point and Pahokee. The road has yet to be accepted by the State Road department. This road has been in poor condition for several years and under construction since early last fall. Everglades residents are taking great satisfaction in the new surface over this highway.

KEEPING HOUSE, helping take care of the family—you would realize that business girls are not the only ones who sometimes get Headache and Tired Aching Muscles. We home girls often work just as hard and have just as many Headaches, just as many Stomach Upsets and get just as tired as business girls.

About a year ago, I first used ALKA-SELTZER.

It eases my Aching Head, takes the kinks out of my Aching Muscles and brings relief when I have Acid Indigestion. The family says I am a lot easier to live with since I have known about Alka-Seltzer.

Have you tried ALKA-SELTZER? If not, why don't you get a package today? Large packages 60¢, Small package 30¢, also by the glass at Soda Fountains.

So-let's not let up until FULL Victory

Who can blame Americans for going half mad with joy as Hitler's cruel war machine is smashed into the dust! For all who have fought and worked and suffered grievous loss, this hour of triumph is deserved.

But our men are still fighting and dying out there in the Pacific. If we let down now, we'll be letting them down!

Let's stick to our war jobs until Uncle Sam says, "Well done—you can relax!"

Let's buy extra War Bonds—they will be needed now, more than ever.

Let's use transportation wisely. Florida Motor Lines would like to offer unlimited pleasure travel right away—today—but carrying war manpower is still its most urgent task. You may be sure that Florida Motor Lines will bring you fine new equipment, new comfort features, new carefree tours just as soon as war requirements will permit.

But now—let's finish the job!

to escape along with a reduced meat supply. All meats but mutton will go under ration at higher per point values. Yes, and the oleomargarine points are going on the increase list.

I lived in St. Cloud at the time when the Atlantic Coast Line took up its rail service from Kissimmee to Narcoossee. While there was not much traffic on the branch for some years past, yet when service was eliminated, we all more than missed the whistle and bell on that puffing engine as it rattled along the line. Well, we here in Belle Glade, are in a short period going to miss the passing of the busy trucks and their noisy whirr on our streets and the town won't seem like the old active place.

With all the drug store lunch counters and our main restaurants closed, Belle Glade is going to be a barren desert for those who have to eat out Sundays. The eat supply and gasoline rationing have heavily struck the eating house proprietors. Lack of gasoline prevents them from "going to market" to get necessary supplies, and truck deliveries of provisions is very uncertain and long time between trips.

Experimental station protectors informed their visiting potato and celery audience that there are many new fungi fighting materials coming on the market for celery, potatoes and beans. Some of these have had local experimental try-outs, and some have been found of beneficial nature, especially those of the oil or coal derivatives, but none of them seem to be as effective as the old stand by, Bordeaux mixtures.

Recall the occasion when the first consignment of boys from the Glades section were sent heading for Camp Blanding for enrollment in the war services. It was something new then, and people had not become hardened or accustomed to their boys leaving home for war. Then there was many "wet eyes" and open sorrow shown. I recently witnessed a similar scene when last selectees left for Blanding. It was a different picture from the original forwarding, as most of those parting with their dear ones, for an uncertain period, took it in rather a stoical and matter of fact manner, did not show regret or sorrow openly.

Judge Hubbell, now 84, works each day at his office desk, taking out notary public papers, and the wonder is, that he does it all with pen, and without the aid of eye-glasses. His side buddy, H. F. Pierce, 72, still can can swing a steady gait, as he makes his daily pedestrian tours like a school boy. He probably does more walking than any other one man in Belle Glade.

Went into an eating place and found oyster soup on the menu. Well, I like oysters and the item sort of whetted up my appetite for them, so I ordered a bowl of soup. Customarily, I usually find at least six oysters in an order, but this time I found but

three, likely due to the high price of the bivalves. Well, I at last got a twang of oyster flavor, so that's that.

In front of Darden's drug store and Dr. Buck's office, are two time worn unpainted benches, which have quite a history. First, there has been more farming done about more schemes hatched there than at any other one spot in Belle Glade, for the benches have been the common council gathering place. Secondly, the upper portion of the bench, seat and back have been worn and whittled away many times and then renewed. An old timer, who knows, states that the bench props were first used in the original church in Belle Glade, which stood on the canal bank. After the church was abandoned the benches for years were stored in a shed unused.

Watermelons In Market

Loads of watermelons from up state regions have been pouring into Belle Glade the past week and the hucksters found ready sale for the product, especially over in "negro town" where that particular type of fruit is said to be very very popular. The "rattlesnake" melons were

not of large size, but the "inwards" were said to be very tasty and flavorful.

basic training at Miami Beach and was assigned to the Engineering Laboratory, Wright Field, Dayton, O., where he served for seven months.

Selected for training as a B-29 specialist he was sent to the Boeing School of Aeronautics, Seattle, Wash., and to the Wright engine school at Patterson, N. J. He was based at Great Bend, Kan., for several months before leaving for overseas duty.

Bob is a graduate of Ft. Meyer High school and attended the Louisiana State University for three and a half years, leaving at mid-semester in his senior year to prepare for military service. He attended Embury Riddle Aviation College for ten months, graduating from both the Aircraft School and the Aircraft Engine School and holds four Civil Aeronautics licenses for various aviation service.

Bob writes cheerfully of his island base, the interesting scenery and good climate. He has seen Ross Robertson several times and wishes to get in touch with other local boys serving in the area.

After "building a house" of his tent home, by replacing canvas with boarding, supplementing the things with hand made lockers, shelves, chests, etc. and fencing and filling in the yard, he wrote for flower and vegetable seed for a garden.

He acknowledged receipt of same, but writes "We boys have no time for gardening now, with the frequent missions. Our B-29s are making over Japan, ground crews have few or no hours off and on one occasion when a change of engines was necessary we worked 32 hours without a stop. Haven't had a day off in over a month, but we feel repaid when the crews come back with stories of the destruction of vital targets, which goes a long way towards bringing this war to an end. When my ship made its sixth round trip in a given time with no engine trouble and not a dent from flak."

WALLACE LUTZ

Upon completion of his boot training at Bainbridge, Md., with the Navy, Wallace has been assigned to the Seabees and will receive his training at Long Island, N. Y. He arrived here this week to spend a thirteen day leave with his parents, Mr. and Mrs. Edward Lutz.

He also paid a patriotic eulogy to our men who had paid the great sacrifice, and who had done such valiant fighting on the field. He also stressed the power of Prayer and urged that each person offer up his own prayer of gratitude and thanksgiving for the great victory which had come to the Allied forces.

The closing prayer was made by H. E. Jones, incoming Commander of the Legion Post. Adjourning followed the retirement of the colors.

Today's War Bonds Are Tomorrow's Peace Bonds For Our Children

LET'S ALL WAIT TO CELEBRATE VICTORY EVERYWHERE

The day of victory has dawned in Europe.

Our armies and their fighting allies have crushed the last organized resistance inside Germany. The fangs of the fascist serpent have been broken.

But this is no time for jubilation, no time for dancing in the streets. The monster in the East is still strong, still able to inflict heartbreaking losses upon us...

One a, one to go! Let's all work harder, pray harder.

This is still our fight...let's finish it together!
